Scientific work on the topic "Analysis on use of social information for the development of the advertising industry with the help of IT"

📅 04/2024 - 05/2024

International Open Competitive Programming Championship "IC/PC"

📅 10/2022

SKILLS

Linux	Github	SQL

HTML/CSS (+Bootstrap) Python (Django)

Selery SQLAlchemy RESTfull API

FastAPI JavaScript (TS)

Databases (PostgreSQL & Redis) ASP.NET

Unity 3D Godot

EDUCATION

Software Engineering

Belarusian State University of Informatics and Radioelectronics

📅 2020 - Present   📍 Minsk, Belarus

INTERESTS

⭐ **Web-scraping**

Interested in API exchange in general and using information from different companies, who allow access

⭐ **AR/VR**

Astounded by possibilities of this technology and think it will continue to be improved and as it will become more accessible, and less dependent on hardware, it will become part of our everyday life

⭐ **Comfort scripting**

Love to make little scripts on bash or batch, that help you spend less time of mundane tasks and make your live a bit easier that way
